

March 19, 2026 Educational Program & Dinner Meeting

Move beyond the basics of Adobe Acrobat and focus on the tools, techniques, and best practices that help you produce court-ready documents, and work efficiently and confidently with PDFs like a pro.

This session covers how to:

- Identify and work with different types of PDFs
- Navigate Adobe more effectively
- Combine and organize documents
- Apply proper redaction
- Compare PDFs
- Reduce file size
- Remove hidden metadata

You'll leave with reinforced best practices and new time-saving techniques you can apply immediately.

Have a favorite Adobe workflow or feature you rely on? Bring it with you - we'll set aside time at the end of the session to share and learn from one another!
