About the Presentation

Recent public technological advances have and will continue to intersect the legal industry and affect litigation. This CLE will address the application of AI as a tool that can help facilitate efficiencies by automating tasks, analyzing patterns, and making comparisons as part of trial prep.

This presentation is designed to cover attorneys' responsibilities under the ABA Rules of Professional Conduct, as well as address the benefits and ethical considerations of various technologies and best practices. The goal is to educate the legal industry on AI and the benefits and challenges it encompasses, along with bringing awareness to the proper and ethical use of AI in the legal industry.

Join us as we determine the best way to balance innovation and responsibility.

About the Speaker

Jason Primuth is the Chief Innovation Officer for Lexitas Legal. With his broad experience in court reporting technology, he founded NextGen Reporting, a deposition services firm that pioneered remote depositions and was later acquired by Lexitas in 2017. He served as the General Manager of RealLegal and Vice President of Sales at LiveNote, Inc. Jason also played a key role in the successful launch and growth of YesLaw software at YesVideo, regularly educating professionals on litigation technology.
