Copilot

Introduction to Microsoft Copilot for the Legal Professional

NOON TO 1:00 PM VIA ZOOM

Microsoft Copilot is an AI tool that acts as your digital personal assistant. Through a conversational chat interface, Copilot leverages generative artificial intelligence and large language models (LLM) to help save you valuable time by assisting you with a variety of everyday tasks. This class is designed to help you understand the basics of accessing and using Copilot and writing effective prompts.
